Medical Treatment Disclaimer

Please understand that working with any healing practitioner should in no way prevent or preclude you from seeing a medical doctor. A Health/Medical Intuitive cannot legally diagnose your condition and prescribe treatment. If you are experiencing what you perceive to be a medical condition, Colleayn strongly advises that you seek help from a medical provider in addition to any work that you may undertake with her.

Follow up calls and emails

Due to the large number of demands on Colleáyn's schedule, she is unable to provide follow-up guidance after a healing without an appointment. If you have a question, you can schedule an email follow up or 15 minute phone session for \$25.00. Since the information that Colleáyn receives comes from Spirit and Your Angels, she does not retain or keep the information, thus requiring her to tune back in to the connection with you for each question. As much as she would like to respond personally to every email request right away, she simply is unable to due to the time she dedicates during her client sessions.

Before & After your Qigong session tips

In Person & Long Distance Session

- Please wear comfortable clothes that do not constrict your body.
- Do not have anything cold to drink 30 minutes before or after your session. The cold energy will interfere with the flowing of the Qi (energy) and anything to drink afterwards will interrupt the flow of energy. It is fine to have warm or hot water.
- Do not eat 30 minutes before or after the Qigong session. The digestion process will absorb energy that otherwise would be used for healing.
- Don't use alcohol before or after the Qigong because alcohol depletes Qi (energy) & affects the mind.

Long Distance Session tips

- Select a comfortable and quiet place to spend the 30-45 minutes, either sitting or laying down. Either begin meditating or rest quietly. It is fine if you go to sleep.
- Have a glass of water in the space next to you where energy will be sent to it for you to sip on throughout the day (or next day). (You can put out as much water as you would like).
- After the session: Take 3 deep, quiet breaths, rub your hands, and massage your face and ears after your session (about 45 minutes from when it began) or in the morning before you get out of bed if you have the session before you sleep for the evening. These movements help you come out of the meditation without feeling spacey.

Long Distance Sessions

Please email or mail clear a recent photo(s) of yourself or whoever is receiving the healing. along with your forms, at least 24 hours before your session. Include the full name, location, & birth date of the individual.

A note about thunderstorms:

Due to the volatile energy in the universe due to the thunder and lightning, Colleáyn is not able to do intuitive sessions during storm times. She is fine to do sessions in regular rain showers. If you happen to have an appointment during a storm, she'll have to reschedule the session to another time. She wants to make sure she receives clear and accurate information from the highest source. In a way it is much like getting poor television reception from Dish networks during a storm. She apologizes, in advance, for any inconvenience that may be caused by the necessity to reschedule appointments.

For more information on the session, please see my website: <http://qigong.ckgalleria.com/>

Qigong works gently with your energy system to remove blocks, open up your channels, and to fill you with powerful, loving life energies of the Universe. As the Spiritual/ Universal energies go in to remove the blocks, the Qi (life force) is able to go wherever it needs to go. By restoring the normal flow of Qi, the body naturally and innately returns to balance. Psych-K™ is a way to change beliefs that limit or sabotage you into beliefs that support you.

♦ **Animal Communication:** Information received from your animal during an Animal Communication or a Healing session are from the animals perspective and experiences. Colleáyn is not a physician or veterinarian, and cannot diagnose illness. What she can do is describe to you the symptoms the animal feels/sends to her, which can be used to assist your veterinarian. Animal Communication is not a replacement for personal cares, training, or veterinary diagnoses or treatments. Please contact your veterinarian on all health matters.
